RADIOACTIVITY

WASTE STREAM**7Y102****Decommissioning of Waste Treatment Facility**

Source:	Radioactive waste generated as a result of build, test and commissioning of nuclear powered submarines at the site.
Uncertainty:	Activity estimate is based on the nuclide mixture processed in this facility.
Definition of total alpha and total beta/gamma:	Where totals are shown on the table of radionuclide activities they are the sums of the listed alpha or beta/gamma emitting radionuclides plus 'other alpha' or 'other beta/gamma'.
Measurement of radioactivities:	The Waste Treatment facility is still operational so any waste is an estimate based on number of tanks / sinks etc.
Other information:	-
