Comment on volumes: Soft wastes are generated continuously through dismantling operations and support activities. This varies throughout the year, an average is given. Waste stored in dedicated containers until periodic collections by waste contractor organised. Waste stocks as confirmed on that date. Predicted arisings use previous average data as an indicator but will vary due to exact timings of submarine dismantling activities and their specifics.

Uncertainty factors on volumes: Stock (upper): x Arisings (upper) x 2.0
 Stock (lower): x Arisings (lower) x 0.2

WASTE SOURCE PPE worn during submarine dismantling operations and support activities, material generated from clean up tasks.**PHYSICAL CHARACTERISTICS**

General description: Low level mixed trash containing paper, polythene, cleaning materials and protective clothing.

Physical components (%wt): Paper/polythene (82%), plastic/rubber/cloth (18%)

Sealed sources: The waste does not contain sealed sources.

Bulk density (t/m³): ~0.14Comment on density: Calculated bulk density based on averages seen is estimated at 0.14 t/m³.**CHEMICAL COMPOSITION**

General description and components (%wt): The waste consists of cellulose in the form of paper, polythene and rubber. Cellulose (41%), polythene (41%) and rubber (18%).

RADIOACTIVITY

Source: The activity arises mainly from activation products.

Uncertainty: The specific activity data is calculated looking at averages from over a 3 year period, applied by year in future arisings.

Definition of total alpha and total beta/gamma: Where totals are shown on the table of radionuclide activities they are the sums of the listed alpha or beta/gamma emitting radionuclides plus 'other alpha' or 'other beta/gamma'.

Measurement of radioactivities: Cobalt-60 is measured by a Large Article Monitor and a fingerprint (determined from a recent sampling and analysis campaign) applied to calculate other radionuclides. Averages from previous waste over the last 3 years have been taken and applied on a by year basis to give estimates for future arisings.
