RADIOACTIVITY

Source:

Uncertainty:

The values quoted represent an indicative Total Activity derived from decay correction of Waste Consignment Information.

Definition of total alpha and total beta/gamma:

Where totals are shown on the table of radionuclide activities they are the sums of the listed alpha or beta/gamma emitting radionuclides plus 'other alpha' or 'other beta/gamma'.

Measurement of radioactivities:

The update provides data transposed from Table 2 of the desktop review in project report HPA/PROG/SILW/0123
